The best part of it is the fact that I am in a position to work with the inventory from my phone. The ease of monitoring the sales from wherever I am has made the running of the business easy and enjoyable.

At first, I could not tell if my business was doing well or not. Now, I am now able to see my profit and make better decisions moving forward!

I now keep good records records of my business with Mavuno. I even got a loan to grow my business with the daily reports from my Mavuno POS!
